

Bill & Linette Strain of the Music Masters,

I just want to say what an excellent job you did as our DJ at our Wedding reception. I have had so many people come up to me and say that the music was excellent and the selection was right on target. One person even said there were only two songs she wasn't familiar with and those were the Irish traditional songs we requested. Not only did you have the finesse and presence of a professional but also you had the technology to match. Any song that we could think of you had at your fingertips.

My Matron of Honor had said to me that she could have only wished that she had a DJ like you. You coordinated everything from how we would walk in to when we should do the toast. And the cake cutting commentary was so helpful. We had no idea what we were supposed to do and in what order. You walked us right through the steps from bride cutting to groom and everything in between. When my Matron of Honor came over and said, "Wendy I think you might want to see about doing the Bouquet toss now" I turned to her and said, "I don't have to worry about that when its time the DJ will come over and let us know."

Again thanks so much for everything. The wedding went better than I could have ever imagined. I will definitely recommending you to everyone I meet and all the wedding couples I teach dancing to.

Thanks so much,

Wendy and David Byrne
