

Hi Bill,

we had to go to a wedding last weekend and yes, WHAT A DIFFERENCE!

Their sound system was not good, they ignored requests, there was no interaction with the guests, and even the bride and groom did not dance that much. During dinner they just played M. Buble's CD continuously. Even Steve noticed that a song played 3x in a row!

THANK YOU! You guys were super professional and you even got my granny to dance to disco! By the way she is still talking about our wedding and how good the music and the fireworks were.

If we ever need entertainment again.....hope you are available! 😊

Diana& Steve
